“Man is still the most
extraordinary computer of all”

– Kennedy, John F

SPECTRA**FORCE** about

Spectra**force** Technologies Inc. (Spectraforce), headquartered in Raleigh, NC, USA, offers a powerful suite of IT Outsourcing and Consulting services, allowing companies to embrace the challenges of meeting and exceeding their IT needs with an aggressive total cost of ownership.

We enable companies to focus on their core business, while we manage the building of quality, cost-effective and on-time IT solutions, backed by a strong management team with deep, IT delivery experience.

SPECTRA**FORCE** at a glance

- Strategic focus on small and medium size businesses
- Preferred IT partner for multiple start-up acceleration programs
- Delivery centers in USA and India
- Servicing clients in USA, UK, Scandinavia and India
- Recognized and awarded consistently by Inc. 500, PWC Triangle Fast 50
- 1700+ associates across USA, Canada, Puerto Rico and India

SPECTRA**FORCE** Outsourcing Services

Spectra**force** provides a broad range of software outsourcing services on diverse platforms ranging from wireless, internet/intranet applications to client server and legacy systems. We offer a unique service to build effective virtual teams that combine onsite and offshore development services through our cost-effective, on-demand service delivery model to maximize ROI.

We have successfully delivered short (3 to 6 month) to long-term (multi-year) engagements, varying from full life-cycle, turn-key projects to existing application maintenance and reengineering projects. All projects are carried out using resources located across our delivery centers in India and onsite at client locations in the US.

SPECTRAFORCE****[™]
ISO 9001:2015 & ISO/IEC 27001:2013

“Anything worth doing is
worth **doing right**”

– Hunter S. Thompson

Our outsourcing services include:

- **Custom Application Development** with leading edge Microsoft, Open Source, Java and Mobile technologies for building custom business applications / products
- **Mobility** solutions across multiple devices and platforms including iOS, Android, Windows mobile and Blackberry
- **Maintenance & Production Support** to meet the demands of rapid technology changes for existing application maintenance & enhancement
- **Legacy Modernization** from mainframe to web / mobile platforms, or simply reengineering to the latest frameworks to future proof your IT portfolio
- **Application Testing** services to ensure quality business systems and applications
- **Enterprise Application Solutions** for end-to-end implementation with expertise in the areas of EAI, ERP, Data Warehousing and Business Intelligence

SPECTRAFORCE difference!

- **Proven project execution methodology** combining best practices from Agile and Rational Unified Process (RUP) to deliver projects cost effectively while minimizing time to market
- **Metrics driven, tools based processes** that provide transparency, objective performance measurement and effective risk management
- Executive oversight through monthly / quarterly steering **committee meetings**
- **Local presence** in Raleigh, NC and Red Bank, NJ combining with offshore delivery centers in India to provide global execution capability
- **Quality assurance activities** tightly integrated with development work at all stages of the project life cycle, coupled with customer sign-off gates, minimize rework and ensures alignment with business priorities

SPECTRAFORCE[™]
ISO 9001:2015 & ISO/IEC 27001:2013

“Perfection has to do with the end product, but excellence has to do with the process”

– Jerry Moran

SPECTRAFORCE differentiators

Spectra**FORCE** aligns to its clients globally by utilizing a combination of three key forces: **People, Process and Tools**. By aligning these three forces, we have successfully serviced and scaled across customers and geographies around the world.

Typical Engagement Model

- Stringent selection process
- 10% bench to cater to contingencies
